

Overview

Chulu Far East Expedition

“Chulu Far East presents an astonishing culture, nature, rich flora & fauna, and a rejuvenating journey, which is something everyone should explore and rejoice”

Chulu Far East trekking Peak is the highly demanding trekking peak among 27 trekking peaks in Nepal. Chulu Far-east peak is located in North- East of Manang valley and beyond the Annapurna Himalayan range in Damodar Himalayan range. There is a group of peaks, it is known as the Manang Himal. Chulu-far east peak was the first ascent by the German expedition team in 1955.

Chulu Far East is a moderate challenging and difficult peak to attempt with 15 degrees to 85 degrees ice slopes and crevasses. It needs to be done with using the equipment like- Fix line rope, Jumar (ascender device), ATC guide or Figure of 8 (belay device), fitting crampons, harness, normal ice-ax, helmet, 2 lock or auto-lock carabiners, 3 open get carabiners and 3m dynamic rope with diameters of 8mm for the safety rope. The fixed rope does not require expert climbers. They can make it with the Alpinist system. The majority of the climbing parts require fixed ropes for safety guarded.

It might be technically difficult to climb, especially for beginner climbers. However, who are in a quest for thrilling climbing and well-acclimatized with a good level of physical fitness obviously, can make it. We are very experienced in Chulu Far East peak climbing. And on the other hand, Himalayan Diamond Adventure provides you genuine climbing gears. It is tested by the **Union of International Alpinist Association (UIAA)**.

The trip does not only offers ultimate climbing satisfaction, but also rewards typical Buddhist and Hindus culture and unique locals lifestyle along with wonderful views of vistas like Annapurna I to IV, Gangapurna, Glacier Dome, Tilicho, Dhaulagiri, and Manaslu. Likewise, you get to witness a stunning landscape.

About Trekking Trail:

The Annapurna Classic Trek and Chulu Far East Peak Climbing will let you experience the distinctive culture, the thriving Tibetan Gurung community, and the warm hospitality of Manage inhabitants. The trail traverses from plain to snow land passing through terraced rice fields, yak grazing lands, and glaciers. Chulu Far East expedition kicks off from Besisahar or Chame and ascends to Marsyangdi valley. We will then traverse the well-known Thorong-La pass 5,416 meters (17,769ft), and then trek down to Muktinath 3,760 meters (12,336ft), before moving down to the Kali Gandaki valley to reach Pokhara.

This 19 days Chulu Far East Climbing is a wonderful climbing trip that takes you to the maximum altitude of 6,059m/19878 ft. Basically, you will walk for 4 to 8 hours per day. For accommodation, you have to spend most of the nights in the lodges and a couple of nights in the tented camp. All in all, Chulu Far East Expedition will lead you through marvelous backdrops, and allow you to get the sight of a distinctive culture. Also, you will

Chulu Far - East Trekking Peak Climbing

traverse through woods like- pine, rhododendron, the terraced pastures. You can choose to go for Chulu East Trekking especially during spring and autumn because of the peak adjacent setting that looks more eye-catching during the above two seasons.

Climbing Route:

The slopes of the peak are 15 degrees to 85 degrees. It is challenging and difficult with ice slopes & hidden crevasses. We will climb the peak [6,059m/19,878 ft], through the normal route the north-east ridge with the full support of fixed rope and fixed rope for safety. The period of climbing hours does not only offers satisfying climbing, but it also presents several sensational panoramic mountain views. After the successful peak climbing, we will descend to the Chulu Far East Base Camp via the same route.

Climbing Training:

The guide instructs you a lot in the Chulu far-east peak base camp time, before the head summit. The guide tips you very important climbing techniques, like climb on slab rocks, on ladders and on blue ice, Jumaring, Active rappelling (Up sailing), and Safety placement, proper arrange of gears and equipment while climbing and use of proper climbing gears.

Rental Gears:

If you do not have your own gears, we provide you with climbing gear on hire at a reasonable cost, particularly for your convenience. The rental gears are branded by Black Diamond, La Sportiva, Grivel, and Petzl. We Himalayan Diamond Adventure highly recommend you the **Union of International Alpinist Association (UIAA)** tested gears one for safe and comfortable climbing.

Safety Measurement, Weather Forecast, and Communication System:

After proper acclimatization and well prepared to push the summit, we will ensure favorable weather forecasts. We always stand on our quality of weather forecast service. It is affiliated with the government of Nepal (Meteorological Division) Mountaineering is itself a dangerous cause of high altitude, frostbite, hypothermia, blindness, snowfall, rockfall, avalanches, crevasses and white out.

However, if we are well equipped, it makes us comfortable climb and at the same time, we can easily avoid the high risk. We are very aware of a possible happening accident in the mountain, so we always ensure our safety first and then we go to the summit. In case, climber faces any unpleasant incident, we have a facility of 4 liters Russian Oxygen cylinder with a summit mask regulator for emergency cause and all required treatment aids with the guide. That means we are stand-by against any danger in the mountain.

Besides these, the guide, as well as the climbers, would be carrying the Satellite phones or Radio sets to approach communication service. Otherwise, focusing the major subject safely, we will arrange all in time even call the Rescue Team or Helicopter and take you down to the low elevation.

Best Time to Visit: -

Early September to the end of November in the autumn season and March, April, and the end of May in the Spring season is the best time to go on this adventurous journey. These months are the perfect time for hiking, trekking, and climbing in the Annapurna region. The landscape will be miraculous with very stable weather. The sky will be always spectacular, however, if you are available following times we recommend you climb Chulu Far East Peak in early September to the end of November for the beginner climbers.
